[EPA-R09-OAR-2017-0043; FRL-9958-99-Region 9]

Approval and Promulgation of Implementation Plans; California; California Mobile

Source Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a revision to the California State Implementation Plan (SIP) consisting of California Air Resources Board regulations establishing standards and other requirements relating to the control of emissions from new on-road and new and in-use off-road vehicles and engines. The EPA is proposing to approve these regulations because the regulations meet the applicable requirements of the Clean Air Act. Approval of the regulations as part of the California SIP would make them federally enforceable.

SUPPLEMENTARY INFORMATION: Throughout this document, “we,” “us” and “our” refer to the EPA. This proposal addresses California Air Resources Board regulations establishing standards and other requirements relating to the control of emissions from new on-road and new and in-use off-road vehicles and engines. In the Rules and Regulations section of this **Federal Register**, we are approving these regulations in a direct final action without prior proposal because we believe this SIP revision is not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. Please note that if we receive adverse comment on a particular rule, we may adopt as final those/the rule(s) that are not the subject of an adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.
